Frontend Developer

Frontend Developer with 6+ years of experience creating high-performance web applications using JavaScript, TypeScript, React, Vue, and Next.js. Proficient in optimizing application performance, writing clean, tested code through unit testing, and designing intuitive, user-friendly interfaces. Strong collaborative skills with a customer-oriented mindset, ensuring the delivery of high-quality features that meet client and business needs. Passionate about contributing my skills to a company that values innovation, user experience, and aligns with my professional principles.

WORK EXPERIENCE

Design Interactive/BAE Systems • REMOTE • 02/2024 – Present

Software Engineer

- Utilizing modern front-end technologies including Vue.js, Vuetify, OpenLayers, SCSS/CSS to build and integrate modular components in a micro-frontend architecture.
- Responsible for designing, developing, and maintaining dynamic, reusable UI components and ensuring smooth integration with the larger application framework.
- Collaborating with cross-functional teams to implement responsive designs and interactive map features for mission-critical applications.
- Adhering to strict security and compliance protocols while delivering high-quality code within agile development cycles.

Airship • REMOTE • 01/2022 – 11/2022

Software Engineer

- Developed and maintained over 5 web applications using React, Nextjs, JavaScript, TypeScript, HTML, CSS, and Tailwind CSS, following the best practices of responsive design, accessibility, and performance.
- Implemented unit testing with Jest and React Testing Library, achieving an average of 90% code coverage and reducing the number of bugs by 50%.
- Collaborated with cross-functional teams of developers, designers, and product managers, using agile methodologies and Git for version control, and delivered high-quality products within tight deadlines.

Power Home Remodeling • 05/2020 – 01/2022

Frontend Developer

- Developed and maintained React components for an internal design system, using JavaScript, TypeScript, Redux, and SCSS.
- Improved design consistency and usability, reducing design errors by 20% and increasing user satisfaction.

- Enhanced the design system with new features and best practices, boosting efficiency and effectiveness, and optimizing code quality and performance by 17%.

Darden Restaurants • ORLANDO, FL • 06/2019 – 04/2020

Frontend Developer

- Increased revenue by 20% by developing and executing A/B testing using JavaScript/jQuery and Adobe Target.
- Applied modern JavaScript techniques and TypeScript data typing to ensure code quality and reliability.
- Enhanced user experience and brand design, boosting client visits by 10%, and assisted digital team with unit testing using Jest and analytics.

Visit Orlando • ORLANDO, FL • 01/2018 – 04/2020

Web Developer

- Improved efficiency and development cycles by refactoring and optimizing development flow using HTML, JavaScript, and Agility CMS.
- Increased site visits by 30% by enhancing web pages with animations and SEO best practices.
- Reduced bugs by 8% by collaborating, troubleshooting, and ensuring cross-browser compatibility.

EDUCATION

Bachelor's Degree in Computer Science

Florida State University • Tallahassee, FL

PROJECTS

Portfolio

Portfolio website created to showcase some of the projects I've been working on. This site was created using Nextjs/React, Tailwind CSS, JavaScript, TypeScript, SendGrid API for Email, Flowbite-React, Next-themes package and Framer Motion for animations.

SKILLS

Git, GitHub, JavaScript, Next.js, React, Storybook, Tailwind CSS, TypeScript, Unit Testing/Jest, Version Control, Vue, Vuetify, Web Accessibility, Web Performance
