Professional summary

Frontend Developer with 5+ years of experience in creating web applications using JavaScript, TypeScript, React, and Next.js. Proficient in optimizing performance, conducting unit tests, and designing user-friendly interfaces. Collaborative and customer-oriented, delivering high-quality code and new features. Laid off in November 2022 due to company acquisition. After taking some time off from work to spend with my family and pursue personal projects, now I am looking forward to contributing my skills and experience to a company that aligns with my values.
