EXPERIENCE

Software Engineer — Airship — January 2022 - November 2022 | Remote

· Developed and maintained responsive web applications using React/Next.js, React Native, JavaScript, HTML, CSS, and Tailwind CSS.
· Implemented user authentication, payment processing, and data fetching using React Hooks, Redux, Context API, and Apollo client.
· Collaborated with designers and back-end developers to integrate front-end and back-end components seamlessly.
· Optimized application performance and code quality through best practices, unit testing with Jest, and knowledge sharing.
· Contributed to codebase with clean, reusable, and maintainable code.

Front End / UX Engineer — Power Home Remodeling — May 2021 - January 2022 | Remote

Developed components for the internal design system using React, JavaScript, TypeScript, Redux, and SCSS.
· Ensured consistency and usability by creating and maintaining reusable components.
· Collaborated with designers to implement visually appealing components following best design practices.
· Conducted code reviews to maintain high code quality and optimize performance.
· Contributed to the evolution of the design system with new features and best practices.

Front End Developer — Darden: Contract — June 2019 - April 2020 | Orlando, Florida

· Increased revenue by developing and designing A/B testing experiences using JavaScript/jQuery and Adobe Target.
· Implemented modern JavaScript techniques and enforced data typing with TypeScript.
· Delivered optimal user experiences, matching brand design and performance.
· Conducted unit testing, tracked analytics, and collaborated with teams to optimize content.
· Collaborated with Design Agencies and stakeholders, increasing client visits to the restaurant sites by 10% on average.

Web Developer — Visit Orlando: Contract — October 2018 - April 2019 | Orlando, Florida

· Continuously refactored and optimized the system to improve efficiency and development cycles.
· Developed web pages using HTML, JavaScript, and animations in Agility CMS.
· Increased site visiting by 30%.
· Followed Agile Scrum methodologies and implemented SEO best practices.
· Collaborated with team members to troubleshoot issues and ensure cross-browser compatibility.

PROJECTS

Portfolio – GitHub - Demo
· Nextjs/React
· Tailwind CSS
· JavaScript
· SendGrid API for Email
· Flowbite-React
· Next-themes package
· Frame Motion

Neighborhood – GitHub - Demo
· Single page application built with HTML5, CSS3, JSX, React and JavaScript.
· Developed using the Google Maps API and Fourth Square API

Movie Finder – GitHub - Demo
· Single Page App (SPA) built with the React framework.
· Mobile first responsive layout with Flexbox and custom media queries.
· Data consumed from the TMDB API using fetch.
· State–managed using react hooks

Robofriends - GitHub - Demo
· Single page application created with React.
· Data consumed and fetched from Robohash REST API
· State management and component rendering done by using react hooks.
· Mobile first layout using Flexbox

EDUCATION

Bachelor of Science, Computer Science
Florida State University • Graduated December 2017

Upsilon Pi Epsilon • April 2017 – Present
Honor Society for the Computing and Information Disciplines

CERTIFICATIONS

Frontend Development
Udacity • 2018
