SKILLS

React, Next.js, Typescript, Redux / Redux Toolkit, JavaScript, Tailwind CSS, Material UI. Chakra UI, Restful API's, GraphQL, Apollo, Agility CMS, WordPress CMS, HTML / CSS, React Native, AWS Amplify

PROFESSIONAL EXPERIENCE

Software Engineer - Airship   January 2022 – November 2022 | Remote

· Developed and maintained responsive web applications using React/Next.js, React Native, JavaScript, HTML, CSS, and Tailwind CSS.
· Improved user engagement by 15% through seamless user experiences.
· Utilized React Hooks, Redux, Context API, REST, GraphQL, and Apollo Client to integrate functionalities such as user authentication, payment processing, and data fetching.
· Optimized application performance and code quality by implementing best practices, conducting unit testing with Jest, React Testing library and knowledge sharing within the team.
· Collaborated with designers and back-end developers to ensure integration between frontend and backend.

Frontend Developer / UX Engineer - Power Home Remodeling   May 2020 – January 2022 | Remote

· Pioneered the development of components within an internal design system, leveraging React, JavaScript, TypeScript, Redux, and SCSS.
· Ensured design consistency and usability, resulting in a 20% reduction in design-related errors.
· Contributed to the evolution of the design system, introducing new features, and fostering best practices, resulting in significant improvements to the overall efficiency and effectiveness.
· Conducted thorough code reviews, resulting in a 17% improvement in code quality and performance optimization.

Frontend Developer - Darden: Contract   June 2019 – April 2020 | Orlando, Florida

· Elevated revenue by 20% developing and executing A/B testing experiences using JavaScript/jQuery and Adobe Target.
· Delegated modern JavaScript techniques and enforced data typing with TypeScript.
· Delivered optimal user experiences, harmonizing brand design and performance, increasing user experience.
· Assisted digital team with unit testing using Jest, tracked analytics, and optimized content, achieving a 10% increase in client visits to restaurant sites.

Web Developer - Visit Orlando: Contract   January 2018 – April 2019 | Orlando, Florida

· Refactored and optimized development flow, improving efficiency and development cycles within the team.
· Enhanced engaging web pages using HTML, JavaScript, and animations in Agility CMS, leading to a 30% increase in site visits.
· Followed Agile Scrum methodologies and executed SEO best practices for enhanced project management and visibility.
· Collaborated, troubleshooted issues, and carried out cross-browser compatibility, resulting in bugs reduction by 8%.

PROJECTS

Portfolio – GitHub - Demo

Description: Portfolio website created to showcase some of the projects I've been working on. This site was created using Nextjs/React, Tailwind CSS, JavaScript, SendGrid API for Email, Flowbite-React, Next-themes package and Framer Motion for animations.

AI Summarizer – GitHub - Demo

Description: AI Summarizer is an app where the user can get long articles resumed for them by an AI like ChatGPT. This project was built using the Rapid API, React, Redux/Redux Toolkit, Tailwind CSS. The app was deployed using Vercel.

Kanban Board – GitHub - Demo

Description: Kanban Board app where users get to add, remove, edit, and drag and drop to different columns to manage their tasks. This app was built with React, Typescript, JavaScript, dnd package for drag and drop, Tailwind CSS, Vite and Vercel for deployment.

EDUCATION

Bachelor of Science, Computer Science

Florida State University • Graduated December 2017

Upsilon Pi Epsilon • April 2017 – Present
Honor Society for the Computing and Information Disciplines

CERTIFICATIONS

Frontend Development
Udacity • 2018
